What is e-mail?

Electronic mail is a method of exchanging messages between people using electronic devices.

Think of it as a way to send letters from your computer!

E-mail Programs

G-mail isn't the only e-mail program out there!

Yahoo.com, outlook.com, and mail.com are a few other common ones!

What is a Google Account?

A Google account is so much more than an email address. It also gives you access to a ton of Google apps, like docs!

Why should you have an email account?

1. It's FREEEEEEEEEEEEEEEEEEEEEEEEEEEEE

2. Sending e-mails across international borders is super quick and easy (and free!)

3. It can allow you to communicate with both friends, and professional acquaintances.

By making a G-mail account, you're simultaniously making a Google account!

Let's make an account!

In the URL address bar, enter www.gmail.com.

What makes a strong password?

A combination of letters, numbers, and symbols make a great password!

Don’t include things like your name, your family members’ names, or pets’ names. They’re too obvious for hackers to guess.

Privacy and Terms

We also combine this data among our services and across your devices for these purposes. For example, depending on your account settings, we show you ads based on information about your interests, which we can derive from your use of Search and YouTube, and we use data from trillions of search queries to build spell-correction models that we use across all of our services.

You're in control

Depending on your account settings, some of this data may be associated with your Google Account and we treat this data as personal information. You can control how we collect and use this data now by clicking "More Options" below. You can always adjust your controls later or withdraw your consent for the future by visiting My Account (myaccount.google.com).
